

How mast cell stabilizer reverse the action of corticosteroid?

Ligature strangulation model

Hanging and its types

Drowning and its types

Inhalers type

How to counsel patient that inhaler is best than oral drugs??

Prescription for MI

Prescription for Pulmonary TB

Cardiac poisons classification

Anti asthmatic drugs classification

MOA of mast cell stabilizers

DOTS

4 types of CA lungs

2 common causing community acquired pneumonia

4 types of emphysema

Name 2 beta agonist having partial function

Signs of traumatic asphyxia

S pneumonia and H. Influenza

Hypersensitivity of tuberculin test is of which type?

1- cardiac enzymes released post MI.

2- Osler nodes, Janeway lesions, splinter hemorrhages, are signs of?

3- four conditions in tetralogy of Fallot.

4- Virchow's triad.

5- one major and one minor criteria for diagnosis of endocarditis.

6- two modifiable and 2 non-modifiable risk factors for atherosclerosis.

Cardiac poisons

Strangulation types

Lynching

Signs of antemortum drowning

Beta blockers having partial agonistic activity

Ace inhibitors names

Characteristics of chronic nicotine use

Types of asthma

Types of pneumoconiosis

Modifiable and non modifiable risk factors of cvs diseases

DOTS

Imp of DOTS

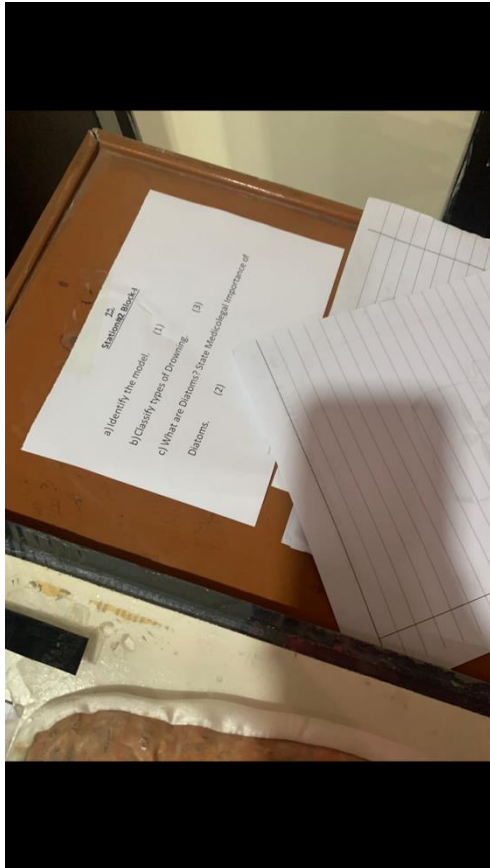

why patients leave tb drugs

Complications of pneumoconiosis

Quarantine vs isolation

Diseases caused by influenza virus

Preventions for people with occupational asthma

Nan
