

Please write a comprehensive history of any medical patient having any medical issue & submit it as a PDF document in the format below of at least 500 words. I've put the format in the activity section which you should read carefully before submitting the assignment.

1. Biodata of the patient.(Name, age gender, Postal address and mobile number)
2. Chief complaints in chronological order (ascending or descending order if more than one).
3. History of the present illness. In this section, the chief complaints are dissected in depth to include some differential diagnoses and exclude certain differential diagnoses. It is the main body, not merely converting a fluent native language into poor English. For example, if the chief complaint is pain, it should be described as type, location, severity on a scale of 0-10, radiation, aggravating and relieving factors, associated symptoms such as sweating, shortness of breath, constipation, diarrhoea in abdominal pain, etc.
4. Past medical history (detailed).
5. Past surgical history. (detailed)
6. Drugs and allergies. (detailed)
7. Family history. (detailed)
8. Personnel history and addiction. (detailed)
9. Systemic inquiry of CVS, Chest, GIT, MSK system, blood, endocrine, CNS, etc. (detailed)
10. GPE (detailed)
11. CVS (all systems in details)
12. Chest (detailed)
13. GIT (detailed)
14. CNS (detailed)
15. Musculoskeletal system (detailed)
16. Genito-urinary system (detailed)
17. Differential Diagnosis (Relevant)
18. Investigations (Please take a snapshot of the X-rays, CT, MRI and ECG.)
19. Definite diagnosis
20. Treatment plan and instructions to the patient and family. (detailed)
21. Follow up
