

- Pilocarpine - physician discussing ANS to HO₃
- Tamsulosin - BPH + no hypertension -
- Shajah-Khagifa - Abrasion on forehead -
- S. Aureus - Osteomyelitis arthroitis
- Gram stain - Carabandi on back of head -
- Neutrophils - Silvery scales - Epidermis biopsy -
- S. Aureus - Septic Arthroitis -
- Indomethacin - PDA closure
- CML - mature neutro + myelocyte peak + 4% blasts -
- Teratoma - 3 germinal layers -
- 10% Formaline - Forensic
- Exhumation - PC 176
- ATP/Creatinine phosphate - Immediate energy source (3dk)
- AIDS - CD4⁺ T cells -
- Promyelocytic leukemia - DIC
- TNF α - Infliximab -
- 337 L2 - Right shoulder
- Ankylosing Spondylitis
- Vitamin - D -
- Explanatory - students attitude towards attending classes -
- Descriptive - Human resource survey -
- Exploratory - Religious community -
- to keep on your feet on ground - grounded theory -
- Rheumatoid Arthr. improves with activity -
- Basal cell carcinoma - Hedgehog pathway -
- Vinyl chloride
- Squamous cell carcinoma - Paraneoplastic

- Sex. linked dominant -
- Mis-sense codon -
- Hamartoma - ~~benign~~ benign tumor
- TP53 -
- Direct damage DNA - UV light -
- Adalimumab - bind α TNF -
- Antibodies to DNA - SLE
- Dermatomyositis - Periosteal
- Rheumatoid Arthr - Anti-IgG
- Sickle cell Anemia - crises
- G6PD deficiency - X linked recessive
- Splenectomy - Hereditary spherocytosis -
- Multiple myeloma - Bence john proteins -
- Ocular retinoblastoma -
- Metastasis - Non-ISA.
- Vaccine
- Cold chain -
- Transmit by use of infected syringes - Hep B -
- Get Ca^{2+} + Vit D - osteoporosis -
- Rickets - kyphoscoliosis -
- Drug Abuse
- Desire of smokers to quit
- Genetic effect
- Under liver
- Plasminogen - plasmin - Alteplase
- Lipoma - Forearm
- Hb bars (hydrop fetalis)
- Bronchospasm - Atropine don't do it -
- ~~Phenylephrine~~ - pupil dilation + no paralysis of accommodation
Phenylephrine

- Timolol - ↓ production of Aqueous humor -
- Polycythemia - headache + blurry vision -
- JAK-2 kinase mutation - Polycythemia -
- crush syndrome - died in police custody -
- Putrefaction - Caspers Dictum -
- Anemia of chronic disease - ↓ serum Fe + ↓ TIBC
- Thalassemia α -
- Inhibit enzyme - Lead Toxicity -
- Parental VB12 - Ileum cut in operation -
- Fungal infection agar - Sabouraud -
- Oat - stib Acid -
- Prostate gland - white semen -
- Incised wound - clean cut, long -
- Carbon monoxide - cherry red -
- bs mod starchy stum root -

- may contain some errors!
